

RAVENNA, MAY 18, 1837.

THE NEW YORK COMMITTEE.

In this paper will be found the reply of the President to the committee of Panic Whig Merchants of the city of New York, appointed at a "distress" meeting to wait upon the President to instruct him how to administer the laws of the country. This modest committee demanded—
1st. A repeal of the Treasury Circular.
2d. The suspension of suits upon custom-house bonds until January next.
3d. The immediate convocation of Congress.

SURPLUS, AGAIN.—The Fund commissioners of the Counties of Trumbull, Cuyahoga, Lorain, Medina and Stark have concluded to loan the Surplus to individuals.

The Commissioners of Portage have been in session some days endeavoring to get released from their obligation to the bank. The clamorous outbreking of public opinion and popular feeling has convinced the wire workers and their instruments, that the people are not yet prepared to bear the full operation of their doctrine. The united voice of the people was raised against being sold to the Cleveland Bank. The citizens of the county with one united burst of indignation, reminded those who would sell them to a bank, that they have not yet become the passive, abject slaves they had taken them for. Although, at the last election, a majority of the voters were wheeled into voting the whig ticket, by misrepresentations and falsehoods, yet they were not so far reduced and debased as to willingly submit to a sale and transfer of their natural and vested rights. What will be the result of this session of the Commissioners we cannot say.

Down go the Barber's Shops.—A report is in circulation in Town, that the Canton bank has stopped specie payment. A passenger in the Stage from Cleveland, last night, says that the Cleveland bank has also suspended specie payments. Wonder where Portage County's proportion of the Surplus revenue is!!

THE WEATHER.—We see accounts of suicide in almost every paper we take up, and we do not marvel at it, if the weather is as bad every where as it is here. We have had but two or three days this spring that it was comfortable without fire to sit by—and over-coats and mittens have been in almost constant requisition.—There is frost almost every night. We write this article by a large hickory fire.

SUSPENSIONS BY THE BANKS.—By papers received this morning we learn that the Banks in the city of New York have stopped payments—not because they have not specie in their vaults, but for the purpose of distressing the Country still further, for political effect.

The Bank of the United States of Pennsylvania has also stopped payment to increase the panic and subvert political ends.

If the officers of the banks would follow the example of those of the bank of the Metropolis at Washington city, confidence would be restored and business again resume its natural course.

The Bank of the Metropolis has published the following notice:

Bank of the Metropolis,
May 12, 1837.

Notwithstanding the information which has reached Washington, of the suspension of specie payments by the Banks of New York, as well as some of the Banks of Philadelphia and Baltimore, the President and Directors of the Bank of the Metropolis, confident in their ability to fulfill all engagements and liabilities of the Bank, have determined to continue specie payments. Satisfied of the strength of the Bank of the Metropolis to sustain its credit, the President, Directors, and Cashier, have determined to pledge, and they will, individually and collectively, pledge, their private fortunes for all just claims against the institution.

By order of the Board:
JOHN P. VAN NESS, Pres't.
GEO. THOMAS, Cashier.

SAVANNAH, April 24, 1837.
FROM FLORIDA.

More brutal murders.—The steam packet George Washington, Capt. Nock, arrived this morning from Jacksonville, East Florida. To Capt. N. we are indebted for the Courier of Thursday last, from which we make the subjoined extracts, the first of which is painful and harrowing to the feelings of every reader.
JACKSONVILLE, April 20.
More murder by straggling Indians.—On the 8th instant the house of Mr. Wm.

Clemmons, situated on the road from Alligator to Livingston's Ferry, on the Suwanee, about twenty miles from the latter place, was attacked by the Indians. The inmates, consisting of Mrs. Clemmons and four children, and a little orphan lad living with Mrs. Clemmons, were murdered. Mr. C. was from home at the time this awful visitation was made upon his family. He returned on the 10th instant, the second day after the horrid transaction, and the first intimation of the calamity that had befallen his wife and little ones, was the desolate appearance of his home, and then the bodies of his wife and children, fifty or more yards from the house.

They had been shot while attempting to escape, as it would seem from the position in which the bodies lay. They were unscathed. The children were shot in the head, and so near were the guns when discharged, that the heads of these unfortunate children were literally blown to pieces! And to add to the horror of the sight and anguish of the bereaved husband and father, the body of the youngest child, a babe, was almost devoured, and the arm of the mother eaten off by dogs.

What a scene was this? What a duty, a heart-rending duty was there to be performed by the husband, the father! To collect the mutilated bodies of his wife and five children, four of them his own, and place them in a corn house till he could go eight miles for assistance to bury the dead.—Breathes the man with heart so cold as not to sympathize with the afflicted and suffering East Florida.

MEXICAN COPPER MONEY.—The coin which has been the cause of the recent insurrection in Mexico, is of two kinds, and are termed Quatillas, Tlacos or Ochevas, which latter is the mint term. The Quatilla, is in value one-third of a Real de Plata, or eighth of a dollar. The Tlaco or Ocheva, is one-eighth of a Real de Plata.

The pieces are small and rudely coined, and are estimated much above the intrinsic value of the metal, one pound of copper producing one dollar's worth of the circulating medium.

The coin was in existence prior to the establishment of the present government, and it is supposed there was between two and three millions of dollars worth then in use. The exigencies of the new government suggested a new emission, and it is calculated that in all the past year there was struck off at the government mint 2,200,000 dollars worth—some of the States also had permission to coin a certain amount.

The rude manner in which the money was manufactured, and its great advance beyond its intrinsic value, excited the cupidity of counterfeiters, and an amount equal to that authorized by law was thrown into circulation, thus making altogether, upwards of seven million of dollars worth of copper money, as the medium of trade in a populace not exceeding seven million.

The government made it obligatory upon those in their employ as officers of the customs and post masters to receive one third of the amount of their salaries in this money.

When the evil had spread so wide as to become a palpable annoyance, the first project of the government was to call in this money and re-issue it at a reduced value of forty per cent, but as this would be attended with a heavy loss to the Treasury, and was found to be troublesome and almost impracticable, as well as unprofitable, it was resolved that the loss should fall upon the holders, and the edict was issued accordingly.

Whether the result was anticipated by the busy and unprincipled politicians of that vexed country, and whether there was not an important political object connected with it in regard to the interest of some aspirant are mooted matters. The issue has been riot and bloodshed, and a fair portion of nature's work has again become the theatre of crime and butchery; not an unusual concomitant of demagoguism.—*Pennsylvanian.*

WHITE'S TRIAL.—Poor human nature, from age to age the subject of scorn—the victim of prejudice—each has made it a target at which to launch its arrows; but yet, amid the clouds of prejudice, and the storms of abuse, there are lights that shine out in glorious beauty upon its divine countenance, lifting the creature to the highest pinnacle of renown.—Traits have been displayed honorable to the heart and ennobling to the soul—traits that break in upon the dream of the misanthrope, and make him sigh that he has ever cursed a world which proves itself so good.

We have been led to these remarks by a scene attendant on the trial of White, for burning the Treasury, which we have had the melancholy pleasure of witnessing. We noticed some days ago, in general terms, the devotion exhibited by the wife of the prisoner towards her unfortunate husband.—Since then, we were struck by a little incident, which we think, is in an especial manner worthy of record; and it is a bright testimonial to the sex, that nature which has been so much traduced, that we now place it in our columns.

It fell to the province of Mr. John Key to open the case on the part of the United States; and in the course of his remarks he felt it his duty to urge upon the consideration of the jury the bad character of the prisoner. He poured upon him a withering array of epithets.

During the Phillipic, White sat perfectly patient. His wife was sitting next to him; and as soon as Mr. Key finished the invective, she placed her hand upon his arm and spoke to him tenderly, as if to soothe him. White gazed with affection on her face, and we imagined that the voice of the lawyer was still and mute in his ear. He heard no more the loud and angry charges—he listened no longer to the terms of reproach heaped upon him—he saw not the jury that were to try him—he saw not the bench that, perhaps was to pass sentence upon his crime—but his ears drank in the sweet tones of that woman. He saw her deep love shining through her eyes—his memory went back to other and calmer and holier days. And what deep and yearning love was centered in the spirit of that lone wife! Her husband almost a branded felon—within one step of the gibbet—his name a by-word—his character a reproach—around her perhaps an indifferent audience—no, we will not say that, but surrounded by persons careless of his fate—she poured forth the modest, yet sublime, tribute of her love, her protecting affection, her tried and trusty devotion, into the ear of her husband.

Beautiful picture of the human heart, did the scene present! and in our mind, at least, it cast a shadow which nothing shall efface. It will serve as a bright memento of a scene replete with anguish and affection. And this was the woman who declared to a witness the noble sentiment, that, "if all the world believed her husband guilty, she, in her heart, knew him innocent." This is equal to the wife of the poor Irishman, who, when they were dragging him to prison because he would not betray his conscience, thus addressed him:—"Remember your soul and your God!"

Mrs. White may be the wife of a convicted culprit, but her name will be linked with virtue and romance.

Horrible.—A negro wretch named John Brown, was convicted at the December term of the Court of Oyer, and Terminus at Williamsport, in Pennsylvania, of a rape upon a very respectable young lady about 18 years of age, living near Muncy. It appears that in the absence of her father, she had gone into the village for a physician to visit one of the children of the family, which was not expected to live. On her return home the black miscreant met her in a small piece of woods, through which the road passed, and despite of her cries of "murder," dragged her about twenty yards from the road to a hollow surrounded by thick underbrush, and having choked her until she was almost insensible, and utterly incapable of further resistance, he perpetrated the demonic deed which must destroy her hopes and happiness forever. He was sentenced to 10 years imprisonment in the Penitentiary at hard labor, \$100 fine and costs.

It is but a few months since a heartless black wretch was confined in the Butler county jail for a deed of the same atrocity and which also consigned to their cheerless doom the budding hopes and prospects of a respectable young lady of Butler county. The wretch evaded the punishment of the law by breaking jail and making his escape.

But a few courts have passed since a negro was consigned to the Penitentiary from Venango county for the same crime.

Language has no terms to express the horrors of such atrocities, and we should be admonished to ponder well before we, by our sickly sympathies, invite a population within the limits of our state who express their gratitude in a manner so revolting.—*Eric. Observer.*

GENERAL BANK LAW.—It will be perceived by the proceedings of the assembly, that the general bill to authorize Banking associations, was read a third time and passed yesterday, by a vote of 55 to 33.

By the provisions of this bill, any person or association of persons may establish banks of discount, deposits, and circulation, upon the terms and conditions specified. These require, chiefly, the designation of the place of business, amount of capital, names and residence of share holders, the restriction of the capital to a sum not less than \$100,000, semi-annual reports to the bank commissioners, circulation and discounts to the extent of the existing banking incorporations, &c. &c. The share holders or partners are made jointly and severally liable to any person having a demand against any such association, and actions may be maintained against all or any of the partners for his debts or liabilities. A similar bill has been for some time under discussion in the senate.—*Alb. Argus.*

Break on the Canal.—Owing to the "pressure" upon the Ohio canal the tow-path gave way this morning at about the centre of the lower level and let the water entirely out. The damage is not great, about 30 feet only of the bank having been carried away. A large number of hands are at work in repairing the breach, and it is said navigation will be resumed in a day or two.—*Cler. Adv.*

The steamboat Sandusky arrived this morning with passengers from Silver Creek, a place situated thirty miles this side of Buffalo; that being the furthest point boats from above have been enabled to reach.—*Ibid.*

The Washington papers mention the death, in that city, of the Hon. Joseph Anderson, late First Controller of the Treasury of the United States. Mr. A. was a native of New Jersey.

PROPOSALS
FOR PUBLISHING AT RAVENNA,
PORTAGE COUNTY, OHIO,
A Semi-Monthly Agricultural Paper,
TO BE ENTITLED
The Western Agriculturist
AND FARMER'S
AND MECHANIC'S REGISTER.

THE Subscribers, believing that the Farming interest of the Western Reserve is sufficiently great to sustain an Agricultural Paper, propose publishing, at Ravenna, Portage county, a paper devoted exclusively to that subject.

The fact is now clearly demonstrated, that Agricultural Papers are of great advantage to the Farming interests of a country. In New-England and in New York, where the art of Agriculture is carried nearer to perfection than in any of the other States of the Union, there are several papers devoted to that subject which have a wide circulation.

Though the population of the Reserve consists chiefly of Farmers, yet there is not a paper designed entirely for their interests, and there are no less than twenty-eight political and religious papers.

The *Agriculturist* will be strictly neutral in politics and religion—it will contain a correct statement of the markets, and give that information most useful to the interest of farmers.

The great improvements which are now occupying the attention of the Farming Public—the many new inventions in the implements of husbandry which are continually appearing, render it highly necessary that all who are calculating to carry the business to a great extent should be possessed of the earliest information on the subject. Now, when the culture of Silk, and the growth of the Beet for the manufacture of Sugar is becoming the engrossing topic of the age, it is important that the Farmers of the Reserve should be made acquainted with all the information to be had on the subject, and we shall give our attention to the procuring and disseminating knowledge on these interesting objects.

The first number will be issued some time in April, if a sufficient number of subscribers shall be obtained to warrant it.
EDWIN R. SELBY,
Ravenna, Feb. 1, 1837.

TERMS.
This paper will be printed a semi-monthly, on good type and fine paper, in a suitable form for binding, with a title page and index to each volume, at the close of the year, for one dollar per annum, in advance, (payable on delivery of the first number.)

THE STATE OF OHIO. In the Court of Common Pleas for Portage County, ss. Pleas Feb. Term, 1837—
Benjamin F. Hopkins vs.
Daniel Collar,
George Collar &
Thomas Earl.

THIS Term of the Court came the Complaint, by his Solicitor, and filed his Bill a thing forth that the said Daniel Collar on the 10th day of April 1836 sold to Complaint at one and a half acres of land in Lot 26 in Franklin—being the same land deeded to George Collar by the Administrators on the estate of Wm. H. Price. That although the said land stood in the name of George Collar, yet the said Daniel was the equitable owner, as he purchased it and paid for it—said George being a minor—that Complaint had paid for said land—that to vest the title in Complaint said Daniel filed his petition in this Court—that he obtained an order to sell the same—that he has sold it for upward of three hundred dollars, which money is now in the hands of Thomas Earl, agent for said Daniel—and that said Daniel and George have fled the country, without making title to Complaint and said bill prays that so much of said money now in the hands of said Thomas, as shall be sufficient for that purpose, be decreed to Complaint, and that said Thomas be enjoined from paying over said money to said Daniel & George till a final hearing of this cause—and it appearing that said George and Daniel are not residents of the State of Ohio, it is ordered that notice of the pendency of this suit be given by publication in the Western Courier, for six consecutive weeks.

NOTICE
Is THEREFORE HEREBY GIVEN to the said Daniel Collar and George Collar, that unless they be and appear in this Court at the next term thereof, to commence on the 8th day of May next, and within sixty days thereafter plead, answer or demur to said bill, the same will be taken as confessed, and a decree rendered thereon accordingly.

Petition for Divorce.
The said Benjamin Williams will take notice that the said Althra, his wife, has on this 8th day of May A. D. 1837, filed her petition in
